

Improving Efficiency in Breeding Programs

Raleigh,
North Carolina

August 15-18,
2016

National Association of Plant Breeders Annual Meeting
Plant Breeding Coordinating Committee Annual Meeting

The **NAPB / PBCC** joint meeting aims to discuss current topics in plant breeding research. Topics ranging from CRISPR-Cas9 to high-throughput phenotyping will be discussed as they apply in row, horticultural, and tree crops.

Graduate student presentations are a prime focus of the meeting as well as interactions with scientists and industry sponsors.

A pre-conference field tour will feature the breeding programs of crops important to North Carolina.

Campus site tours of SAS and Cotton Incorporated will conclude the meeting.

Joining NAPB as a member (\$80 professional & \$35 student) results in discounted annual meeting registration fees.

**Speakers this year include
renowned scientists:**

Rex Bernardo
Nicolas Champouret
Luca Comai
Mike Gore
Wayne Hanna
Jim Holland
Steve Knapp
Ramsey Lewis
Steve McKeand
Jesse Poland
Robert Stupar
Jennifer Yates
Craig Yencho
