

POTATO VIRUS DETECTION TRAINING

JUNE 20TH, 2016 OTHELLO, WA

For growers, inspectors, regulators and anyone interested in learning more about detection of PVY, PMTV and TRV in field applications. The workshop will be held at the WSU Othello Agricultural Research & Extension Center, 1471 W. Cox Rd., Othello, WA from 9am-3:30pm. Lunch will be provided. For those who can spend more time, you are also welcome to attend the **WSU Commercial Seed Lot Evaluation June 21st** and **WSU Potato Field Day on 23rd**, both in Othello, as well as the **OSU Potato Field Day at the OSU Research Center in Hermiston, OR on June 22nd**. Come and make a week of it! Register for the event at <http://bit.ly/ws-potatovirusworkshop>. For more information about the event email pbg-potatovirus@cornell.edu.
